**BBK has become a fixture in the bass music scene over the last year, with a string of features in top 100 tracks across several genres from electro house to glitch-hop, however as his name suggests, he lives for breaks. On his first artist album he curates remixes of some of his previous releases along with original work from some of the genres finest producers including Karl Sav, OnDaMiKe , Seth Vogt, Josh Chambers, Alt A, Chaos Theory, Sychosis, JDOUBLE, Timmy Teaze and Allen BreakZ .**

**Each track stands on its own and is able to showcase both the producers individual sound, but also the single unifying factor BBKs voice. As an MC he not only has a great cadence and sense of timing, he is also lyrically on point with a clear understanding of how to create infectious hooks and party ready flows. The tracks range in sound from the funk fueled Star Is Born Remix by OnDaMike to the 808 bass of Beatslappaz' VIP to the big room boom coming from Breaksmafia's Karmalex. This is one hour of bass and breaks to make your body move.**
