New Roland Boutique Synths Announced!! Posted by jacks - 2015/09/23 10:47

Hey,

I saw this post on FutureMusic about three new Roland Synths being released next month! :woohoo: Seems they're giving the Jupiter-8, Juno-106 and JP-3X the AIRA treatment!! Definitely getting in line for the Jupiter!

New Jupiter JP-08

nice - will it be hardware or software??

got to love future music. they have been a great source for us and love all the disc features.
