

## midi over lan

Posted by atri - 2007/10/29 15:10

---

im using a free midi over lan program. i figured id ask if anyone had any experience with this kind of stuff so i can quit banging my head into a wall.

=====

---

found a faq through abletonlivedj.com and did it with a midisport uno as one of our comps has a soundcard with midi ins and outs  
happy day

im using a free midi over lan program. i figured id ask if anyone had any experience with this kind of stuff so i can quit banging my head into a wall.

i used to use Plasqs Wormhole for audio only... it may seem a bit offtopic, but apparently it's now free!  
<http://plasq.com/wormhole>

which application you using for midi?

cheers
