

Mixer shopping

Going to treat myself to a new dj mixer after the xmass mayhem! I'm planning to stay in the \$300 to \$600 hundred range. I have been looking at the ECLER mixers.. they seem really nice. Anyone own one of these mixers or ever work with one??

Here is my new mixer! She is a little hottie.
Her faders are smooth as hot butter. Nice big nobs also. :hump:
