Drumattic Twins - Nice rolling breaks from 48K Deenk & Kwerk remixes are good and very usable thanx.

Roxright - Killer stuff! Loving the original 48k version, and a well rounded EP as always.

Lazyboy - Huge release!! digging the original, Deenk & Kwerk mixes are sick.

Bass reflections - Loving this release... groovy beats and smooth basslines mixed with tons of sick vibes. Really big up on this!

Stephen Cole - Original mix kicked the best for me, but also have to give a tip of the hat to the other mixes. Nice work!

Scott Remedy - All the mixes are strong, but the original for me!

Definition Breaks - The Kwerk remix is the one for me on this package - it has got that funky edge to it and the dubby section is wicked and unexpected.

Mr Nobody - another well crafted tune from 48k this! all about the original for me on this one. full support!

Mezza - Really liking all mixes, but think the Deenk version is my fave from early listens.

Inconspicuous villian - Loving this right here!!!

Morphosis - Great stuff, Konor and Kwerk Remixes are tight as.

8*B1T - Definitely diggin this release, 48K always kills it. The original is sick and all remixes are top notch. I'm feeling the Kwerk and Deenk remix, but really surprised by the direction that Konor took the sounds. Great stuff!

Warped Recordings - Loving the 48k vibes! That vocoded synth is a killer, nice work. Good selection of remixes too, my pick of the bunch would have to be the original although the Deenk remix is huge! - Mr.Cid

Hoax - Gonna have to go with the OG on this one, solid tunes all around. The Konor remix is a slamming glitch hop number! Will definitely get some play from me as well.

Tom Clyde - Great original tune! digging this mix of funky vox and psy elements! Also Kwerk remix definitely for me. Very strong pack!

Barrcode - Cool stuff, will put in the mix.

Mad Team - DOOOOPE !!!!!!!

N-Mitybreaks - Good original mix and remixes, my favorite is a Kwerk remix, good breakbeat.

Yreane - Original and Kwerk remix are for me here. 48k production is getting better and better with every release.

Retroid - Great release! I will play this for sure!

Ilupa - Cheers for this! Digging the original - solid groove and deepness. remixes are cool, but it's the original for me.
