Chevy One - Can't Blame You Remixed **OUT NOW!**
Posted by thegulfgateproject - 2021/05/24 17:16

_____

It's time for some Toast & Jam remix action, and this week we've enlisted the help of Colombo and Rennie Pilgrem to fill the duties. Colombo has reworked Chevy One's - Can't Blame You into a brooding progressive roller with a brand new bass line and a healthy dash of the original vocal sample. Rennie Pilgrem busts out some fresh analog and acid synths and heaps on some tribal percussion for good measure to bring us along on a journey into bass and breaks like only he can. Too tough to choose between these two remixes...you're just going to have to grab both!
