

Fisso & Spark - Rock The Disco Remixed *OUT NOW!!*

Posted by thegulfgateproject - 2021/07/29 15:12

Toast & Jam's Remixed series is back with two fresh takes on Fisso & Spark's track Rock The Disco. Up first is the legendary Dopamine who crafted a future-forward tech house roller. This jam chugs along with side-chained sweeping pads, delayed synth stabs, and loads of Dopamine's signature tribal percussion. For the second remix, Perfect Kombo brings his peak-time party energy with a syncopated bassline that stands as the centerpiece of the track. His always crisp drums and gated siren effects are set to shred some sneakers on the dance floor.
