

Ra iil - Stick 'Em Remixed *OUT NOW ON BANDCAMP!!*

Posted by thegulfgateproject - 2021/09/23 17:43

Hankook makes his debut on Toast & Jam with his remix of Stick 'Em. Loaded with heaps of sawtooth synth work from the original, Hankook's remix ratchets up the tempo and introduces a relentless sub-bass that will rattle the pictures right off the wall. Kodek brings home the remix package with his signature pristine drum programming and a new top-end synth, giving way to a syncopated bass line that brings a brand new progressive feel to the track. Two high quality options for your next set.
