

Rasco - Put The Breaks **OUT NOW ON BANDCAMP!!!**

Posted by thegulfgateproject - 2021/09/30 03:33

We are excited to welcome Spanish breakbeat legend Rasco to the Toast & Jam family with his newest track Put The Breaks. Right out of the gate Rasco turns the funk up to 11 with a retro electro-bass loop in the intro. A monster drum fill kicks out to the melodic theme where a funky synth line harmonically stacks on the sub bass and the result is nothing short of some melt-your-face-off breaks the likes of which we haven't heard in quite a while. An absolute monster tune right here!
