Toast & Jam kicks off the 2022 release calendar with an outstanding remix package of F-Word and Julia Marks' Last Party. Up first is the Kraymon remix where the original bassline is employed with a fresh and lively set of percussive elements and the Julia Marks vocal ties the track together. Aggresivnes wheels out an all new progressive bassline, as well as a full overhaul of the kick and snare for a high energy take on the original. You can't go wrong kicking off the new year with either of these jams!
