

Andy Faze - Mirror Mirror *OUT NOW ON BANDCAMP!*

Posted by thegulfgateproject - 2022/03/05 01:59

Andy Faze is back this week with his smoking hot new jam Mirror Mirror. This track comes out of the gate with a staccato syncopated bassline that is really the driving force of this piece. In the mid-track breakdown a synth lead is introduced that builds to the drop and from there we are off to the races with glitches, reversed synth tones, and a galloping bassline that is set to keep the dance floor hopping.
