

The GGP - In The System Remixed ***OUT NOW!!!***

Posted by thegulfgateproject - 2022/03/09 16:10

Toast & Jam is bringing you two spanking-new remixes of The Gulf Gate Project's classic jam In The System. Rasco kicks things off with a zesty reworking of the original. In the breakdown an arpeggiated synth builds to the drop where some new percussive bongo elements are layered in. Rasco then pairs together one of his signature bassline and synth stacks in a funky syncopated pattern and we're off to the races. Next up, progressive breaks aficionado Retroid dials up a rolling, acid-filled journey for us to enjoy. Bringing a tribal groove to In The System in a way that has never been imagined, Retroid takes us deep into the night and miles down into the underground.
