

## Kid Digital - RoboDisco \*\*OUT NOW ON BANDCAMP!!!\*\*

Posted by toastandjamrecordings - 2022/06/28 20:42

---

All automatrons to the dancefloor! The robots have taken over the decks and turned this party into a RoboDisco. With Kid Digital at the helm, RoboDisco is a fusion of 80's era breakbeat and modern music-making technology. Complete with Speak-And-Spell and vocoded vocals, the funky drums and computerized glitchy fx will have every robot in your posse with a mechanical finger in the air.
