

Pointless Animals - Despair/It Was Only *OUT NOW*

Posted by toastandjamrecordings - 2022/07/18 03:16

Toast & Jam brings you a smokin' hot two track EP from UK based producer Pointless Animals. Despair employs a pounding 808 bassline, along with an ethereal synth element, to take you on a dark and brooding tech-breaks journey. It Was Only keeps the vibe deep and mysterious as sweeping pads underpin shimmering synth hits and piano chord stabs, while a chanting vocal loop floats in and out. Two very fine pieces of sound design skill right here.
