

PROPA DROPA - Save The Rave Remixed **OUT NOW!!!**

Posted by toastandjamrecordings - 2022/09/25 03:09

We've got two new remixes of one of our biggest tracks over the past year, Propa Dropa's Save The Rave. Leuce Rhythms is up first and wastes no time building some very rich and warm sounding synth stacks over top of the original hook. The programming is precise and clean and brings the Leuce Rhythms signature tech-breaks vibe to the track. San Francisco breakbeat resident DJ Justin Johnson turns in a rowdy dancefloor bomb with a gnarly bass line, well-timed stutter edits, and an electric piano loop that will leave your party catching its breath after this one is over.
