

Leuce Rhythms - Highlights Remixed NOW ON BANDCAMP

Posted by toastandjamrecordings - 2022/11/16 02:31

The Toast & Jam Remixed series has reloaded with two more top shelf offerings for you to wheel out in your next set. Breakbeat heavyweight Rasco gives Highlights a chunky overhaul, complete with his signature syncopated sine wave bassline, utilizing the original vocal loop in the breakdown and building to an epic drop. If a deeper, tech-ier vibe is your flavor, look no further than the Pointless Animals remix. Shimmering arpeggiated synths and undulating pads ebb and flow over the 808 kick drums as the vocal weaves its way effortlessly through the mix.
