## Jiro & GreenFlamez - Elastic Mind \*\*\*OUT NOW!!!\*\*\* Posted by toastandjamrecordings - 2023/03/18 04:48

When two producers like Jiro and GreenFlamez get together you can be sure some heavyweight breakbeat business is about to go down, and their new track Elastic Mind delivers exactly that. A stomping breakbeat drum kit gets things rolling as an epic synth sweeps in and a reggae vocal loop chants the dance floor into action. The sine wave bass line bubbles up after the first drop in a shoe-shuffling frenzy as Elastic Mind stretches your brainwaves with its floor-filling funk.
