

RØX - Let It Roll ***OUT NOW ON BANDCAMP!!!***

RØX is funk'n' things up for Toast & Jam with his new track Let It Roll. This high octane slice of breaks is going to push the dancefloor with its chunky drums and syncopated growling bassline. An array of vocal chopping, bleepers, and horn stabs weave their way through the drop as a LFO riser effect brings you in and out of the breakdowns. Nice tight production from RØX on this one!
