

Dubaxface - Inside ***OUT NOW ON BANDCAMP!!!***

Posted by toastandjamrecordings - 2023/09/20 02:41

Two parts funky and one part quirky, Inside is Dubaxface's latest offering here at Toast & Jam HQ. Out of the drop, a rising synth element leads into the main groove as an 808 snare with just the right amount of reverb joins forces with a shuffling bass line to get Inside cooking. A dub-delayed synth chord stab pops in as rhythm guitar elements alternate with a second LFO'ed synth to take us to the break. Rinse, repeat, and you've got some funky summertime vibes to cool off the dance floor.
