

Do You Feel Remixed - Kid Kenobi & Mizzo - OUT NOW

Posted by toastandjamrecordings - 2023/09/20 02:55

Our Toast & Jam Remixed series returns with two fresh reworkings of the 2022 release Do You Feel by Greenflamez & Dubaxface. Kid Kenobi is up first and kicks things off with a new arpeggiated synth in the intro. A steady buzzing bass line is echoed by a huge synth chord, giving us some serious late 90's DJ Volume vibes. Mizzo dials up his finest 808 drums and bass for an electro-breaks experience. Utilizing a previously unused part of the vocal sample, Mizzo's remix is a sparkling slice of electro ear candy.
