When Mr. Big Mouth delivers a new tune, you can rest assured it's going to be a funky affair. His new tune Bring Back To The Funk definitely delivers. With layers of rhythm guitar, horns, and organs, Bring Back To The Funk sets the table with the key elements for a funk band, only to blow the roof off with a bending sawtooth bass line. Add in some clean drums and percussion and you've got a Mr. Big Mouth funk bomb special!
