Tone Abstract - Real One **OUT NOW ON BANDCAMP!!** Posted by toastandjamrecordings - 2024/01/18 19:03

We've got a fresh new jam from Tone Abstract for you here. Real One features a springy bass line and an 8 bit style bleeping synth to get the party into the groove. Vocal chops work their way through the mix along with some impeccably timed chord stabs as a pitched down vocal lets you know know he's a Real One.
