

Mr No Hands - Funky Hip Pop Jam Thing/WTF *OUT NOW

Posted by toastandjamrecordings - 2024/01/25 00:40

Veteran DJ/producer Mr No Hands has crafted some excellent new breaks tunes and we are happy to present you with the first two right here. Funky Hip Pop Jam Thing comes at you with a scruffy bass line, a handful of chopped and edited vocal samples, and some booming kicks and snares for a bouncy breakbeat experience. The second track on the EP WTF brings that same bouncy energy and features a bass line/synth stack for the main melodic component. Toss in a healthy dose of tambourine and percussive elements and you've got a dance floor friendly weapon ready to unleash.
