Cereal Killaz "Substance D' + Double Negative "Roadworks"

On the A side is a sleek number that is a little different than the average transverse release brought to you by none other than the Cereal Killaz (kostek and). Chocked full of crisp clean production, groovy fills and wrenching bass of course. A more mature sound coming from this duo. check it.

Substance D Clip

On the Flip we have something more abrasive from an up and coming duo from New Zealand, Double Negative. "Roadworks" is a journey of intestine shaking bass and clever percussion overlays with heavy drums. A gnarly / moody number of that you would expect to hear on trans:verse.
