OUT NOW on Badbwoy Bass!!!!

Balls out break beat business straight up fuckin ill for the party rocking dj. Ripping bass lines in and out a tech funk style break beat with a tear out influence, dope original vocal cuts and vocoder action. Serious skankin' guitar riffs and proper synthetic bass lines rip through the funky chunky break beat. Ultra friendly for dj's in and out the builds and climax, Just what the funk doctor ordered!

In addition we are extremely proud to have one of the hottest upcoming producers from the US: Farace. If you visit the top 100 breaks then you know him already and his latest tracks are all bangers! Farace blew this remix up, the entire Badbwoy Bass Records Crew has club tested and approved this joint! A pure tech funk break beat sonic assault. From the get go pure energy and funky grooves maintaining the original vibes but just takes the production to another level with his slammin signature style!!!

As the world has come to love this new jack, fidget, electro house we just had to hit our bwoys from the south up. Viro and Rob Analyze serve up a proper jackhouse remix with huge bass lines, chopped and screwed drum patterns, fills and programming. The duo is sure to make a mark with their new direction in production and we are proud to feature them on our latest release!
