

Looking for Unsigned Tracks for upcoming nsbradio.co.uk show

Ez folks. Wanted to give a shout out and see if there are any unknown producers out there looking to get a track heard/showcased. I'm doing a show on the 18th where I'll be incorporating about 10-12 tracks of unsigned/unreleased materials. I've got most of them picked now but its something I'll be doing on a fairly consistent basis. If there are any interested parties, pm me or email at damage.control.entertainment@gmail.com
