We have a special show lined up this week for y'all - to celebrate the forthcoming release of the Rhythm Section - Coming On Strong The Remixes EP we have a guest mix from one of the original members - the legend that is Ellis Dee!!!

He has put together a phat mix of 92 oldskool trax - and it is pure white label business - so much so that he hasn't even supplied a tracklist because they are all whites!! It is a wicked mix - and is not to be missed.....

We will also be playing a couple of the remixes from the Rhythm Section EP on the show as well - there are some diverse mixes on this release - definatley something for everyone from breaks to dubstep and drum and bass....

All this alongside our usual mix of bassline business and of course Definition:breaks exclusives....

So join Jo and myself on Sat night at 11pm on the net - on I-Tunes or even on your mobile.....
