The Cage Page

The Cage Page band are far from newbies on the club scene. DJs and producers, as well as residents of the Vim Record-label, the Cage Page had for a long time dealt with the development and promotion of Breaks to the masses.

The bands activities include organizing and participating in various musical events, and even cooperation with the leading Ukrainian and Western musicians and record labels of the electronic scene. Creativity of the Cage Page is continuing to bear fruit and the band is gradually expanding to the international breakbeat scene.

Their tracks often occupy a worthy place in the sets and compilations of many DJs. The band does already have two clips on the songs "To You" and "Tak i ostanemsa", which has collected a lot of positive feedback from listeners and received heavy rotation on TV and radio stations. At the moment, the group is finishing their debut album which will be released on the Inferno People-label.
