Somsay or SOMESAY is an alien from outerspace... 2011 has just started to rollout a string of his original music with numerous vocalists from Montreal to appear on his tracks. Government Lies by Somsay and Rick Rags release was his first original track out on beatport and trackitdown.net hit the top 100 Breaks Charts. Without a doubt Somsay loves the Canadian scene and is devoted to it, as he is the founder of Google top Breakbeat webzine, "Breakbeat.ca". Expect to hear his slick musical arrangements, big nasty basslines, unique Canadian vocalists, glitchy fx, with an array of various

bouncing beats like breaks, dubstep, electro house, and Nu Disco. "SOMESAY" is his funky alias...has just started his Monthly night in Montreal...checkout <http://www.ethikal.ca> for more info on his night in Montreal @ Undwerworld Venue and here is the group page:
