Dj Breakstyler

I originally started DJing (very badly) back in 1989 at some of the famous warehouse parties around the NW UK after taking a few years out whilst serving in the Army in Germany and playing the occasional set in Rotterdam's famous Parkzique Club. i returned to the UK and played for various nights such as Federation (Blackpool), Munroes (Burnley), Vortex @ The Mill (Preston). I eventually Got my own night which i promtoed and headlined called Evolve @ the Rhythm Dome (Blackpool) a massive Venue with a capacity of 3500. We mainly played trance, House and hard house etc along side DJs such as Stretch n Verne, The Rhythm Masters, Daniel Davoli (Blackbox),Fragma and many more. Following a fall out with the Owners of the club (the usual story) i left the rhythm dome and 2 weeks later it closed. I then moved out to Ibiza for a year where i residency at BN3, for 6 nights a week and guested at Bar M , Eden and various workers parties but after that season i decided to call it a day and retired the decks.

However about 2 years ago the bug predictably came back and ive been totally blown away by Breaks and think ive now found my true love and want to share it with you.
