Blending some of the funkier and dirtier breakbeats, McTwist has evolved a sound over the years to one distinctly his own. Over the past few years, McTwist has garnered respect from many of his peers and has played along side many great DJs and producers such as DJ Dan, Aphrodite, A-Track, Robb G, D-Monic, Big Leauge Chu, J-Groove and many others. Not only has his style evolved but he has picked up a few tricks along the way. Teaching himself pretty much everything, his musical background as a drummer allowed him to pick up DJing easily. Most recently, McTwist opened for Deekline and Wizard. Now teamed up with Dr. Delicious, "The Sultans of Suave" are tearing it up. The funk will be in your area in the new year. Most notably, Apex 2008 in Chilliwack, BC Canada.

McTwist will be releasing his first album in the new year. Stay tuned!
