Read up: ("knowledge is power"...)

We roll like this:

"Breaks Inc." is Phoenix Arizona's biggest breakbeat duo as Xpdex & Seven have emerged from the shadows as two of Arizona's biggest breakbeat DJ's, and Producers. Their bass oriented, high energy track selection and clean mixing skills will fill up any dance floor when they throw down together, or individually.

In the past year alone they have toured several states and have played with some of the biggest names in the breakbeat industry including Dustin Hulton, Dj Icey, Baby Anne, Dj Fixx, Aquasky, and Keith Mackenzie just to name a few.

The production side of Breaks Inc. is now in full swing with an arsenal of over 40 original tunes/remixes being produced in the last 2 years. Their debut release, the "Krystal Blue EP" was released on Krispy Beatz Recordings in November 2008 w/ remixes from Discosynthetique & Miller (Orlando, FL), and Spyke (from Russia).

In April of 2010, Breaks Inc. received an invitation to be a part of Channel Surfer's "Silver Screen" remix EP and remixed Channel Surfer's "Long Breakdown" which was released on the Televisionary Recordings label.

While the main label Breaks Inc. represents (K.B.R.) had to take some downtime due to a tragedy, the duo wisely used the time to their advantage honing their production skills, developing their own unique style of breaks, and blowing up practically every dance floor that they have encountered.

With K.B.R. now back in full assault, the label has dropped Breaks Inc. remixes of A Crisis of Sound's "Already There", "Fine Without You" from Shawn Davis, and a soon to come release from Breaking

News entitled "LSD" that will also include a Breaks Inc. remix.

This hard working duo are also starting their own new label in the coming months named Desert Breaks Recordings to represent the many talented Artists/Producers that hail from Phoenix area, and southwestern U.S., which will launch in December of 2010.
