

A NEW TRACK - made by Nubreaks.com Members!!!!

Posted by DigitalMasterTaco - 2012/08/30 00:44

I've deceased to make my newest track (like any of you know about my past tracks, lol) based on the Nubreaks.com Family Members...

I'm posting the renderings of my "meat and potatoes" of my latest track, I'm I'm COUNTING on you, the members of Nubreaks.com, to judge, vote, and inform on which you think would make the best track.. I've kept it simple, only varying the main part of the track with atmos/background sounds, so that we can start this process simple. :D

If you like what I've done with the end result, I encourage you to participate in future tracks being released in which I will take opinions involving the main landscape of the entire song.. Stay in Cho0n!!!

I truly do appreciate all that my fans have done for me in the past years, which is why I feel it just might be about the time to do something different and give back to my supporters :D

Keep it locked to Nubreaks.com and stay in touch with our forum to see what's next one the agenda!!!
