Straight off the press! still warm!

A breaks and filthy electro set with new tunes the whole way through,

This 125 minute mix tape is bassy as fuck and is not intended for the lighthearted or pussyfooted punks who like cheep mainstream tunes

A small peice of info; this starts off pure dirty and ends pure dirty! simple!

heres the filthy link - http://www.4shared.com/file/42711424/e8a4ed8c/_2__radio_demo_mp3.html

let me know what you think!

comments and abuse welcome as always
