### A:B:S

Andy Beckett aka A:B:S is a fast rising producer from Colchester, UK. Originally making his names as a Breaks dj A:B:S managed to build a really tight Tech-Funk sound blending elements of Techno, Electro-House and Breaks. His debut on the production side of things was back in October of 2012 with a killer single for DEAD FAMOUS RECORDS called "SEQTRONIC". The single caused a lot of buzz in the Tech-Funk scene and gained strong support by a lot of djs while A:B:S released a remix for VANDAL's "VISION IN LEATHER" single for BENEFIT RECORDS in the beginning of 2013. His last offering was another dope remix for WAYS AND MEANS "DON'T THINK NOT" on AUDIO 23 RECORDS released early June. With a remix for DIRT REVOLVER's "SOUL SURFER" single and a new single called "FROSTBITE" due to be released soon on V.I.M.BREAKS SPECIAL EDITION singles series seems like 2013 will be a really busy year for the rising producer!
