Adrian Heathcote is a killer Breaks/Progressive/Electronica producer from Bedfordshire, UK. He have started experimenting with sounds and samples back in early 90s and produced his first tunes around 1998. He have completed his first album back in 2001 and since then he have self-released 7 more albums which are balancing between Electronica, Breaks and Progressive sounds. His first V.I.M.BREAKS SPECIAL EDITION SINGLE released back in the beginning of 2013 (V.I.M.BREAKS SPECIAL EDITION 08 "KURUOSHII/THE ASSASSIN") caused a lot of buzz and gained chart success and strong support by key persons of the breaks scene. Watch out for his forthcoming V.I.M.BREAKS CD called "MINDSCAPE" due to be released in October of 2013 with ten rather excellent tunes and special guests on vocals!
