VECTRIX

Martin Warren aka VECTRIX is a fast rising quality producer from New Zealand. Over some years of production experimentation with Breaks and Techno sounds VECTRIX managed to create a rather solid Tech-Funk sound by blending rolling Tech-Breaks with Electro-Breaks touches and killer Psychedelic elements! His first single for V.I.M.BREAKS "THAT'S WHAT'S UP" caused a lot of buzz in the scene and gained strong support and chart success, while the rising producer got on the pipeline two remixes for our label (for SLUGWARE's "PUMP IT UP" and for SUNSHA's "EARHTQUAKE/MIDNIGHT" singles) and a new single for SOUND & KNIGHTS RECORDS. Watch out for more by this Psychedelic Tech-Funk knight during 2014 and his forthcoming V.I.M.BREAKS SPECIAL EDITION single entitled "AWAKE TOO LONG/POWER OF THOUGHT" during this Summer!
