KL2 - Vox Trick / Check Out The Rhythm [BRB-D56]

Vox Trick is a funky breakbeat bass driven journey with a marvellously glitchy vocal over solid production. Another quality release from KL2, quickly becoming a breakbeat household name! Next you get served up a heavy yet groovy remix by Canadian DJ/Producer McTwist, taking it to the funky next-level with thick melodic breaks over a flare of deep grinding chaos. This one a must have for the underground djs rockin' the nuskool breakbeat sounds all over the globe.

The second track on this release, an original by KL2 - Check Out the Sound keeps that funk going with booming basslines, fresh cuts and samples, and a dance-all-night vibe driven by some energetic horns and synths bringing nothing but dancefloor glory. One for the breakers and the party people to both get down to.
