

Circle, the first release on new dance imprint Cognitive Music, is a deep, vocal driven breakbeat track by up and coming producer Dave Gluskin. The original track blends deep melodic elements with textured vocals and driving breakbeats, building to a blissful gated vocal pleading to her lover for inclusion, begging to find a way to break into their circle. The lush pads and beautiful chord progression, coupled with Dave's signature vocal work, help to convey the deep desire that is ever present in the vocal and give the

track both heartfelt depth and dance floor sensibility, with a driving bassline and aggressive breakbeat constantly pushing the track forward. A rhodes organ and orchestral elements add to the drama of the track, while giving it a bit of an organic feel.

Includes original mix & remixes by Colombo, DJ D-Xtreme, Stylus & DJ Rob-E
