

SUB017 - Algorhythmic - Reality Struggle - OUT NOW!

Posted by sub element recordings - 2015/05/07 18:25

<http://s30.postimg.org/ktys4jr3l/SUB017.jpg>

Algorhythmic brings his signature brand of Psy Tech Funk to the label, with some seriously big hypnotic grooves that keep you locked from start to finish. Expect big things from this man!

Remixes on this are delivered from Lot49's man of the moment Yreane, with some raw techy flavours, and a darker more Psy influenced remix from Acidova. All in all an overall darker release but again hopefully something in here for everyone!
