

Dj Fitz - Atlanta GA.

Posted by DjFitz - 2012/07/25 08:46

Originally from Chattanooga TN, My first brush with Electronic music was watching the late night MTV and they played the song "Music Sounds Better With You"and I was hooked to it after, but I did not know what it was called at the time.

I started DJing in 2003 at home and a little hole in the wall location in Athens TN, and this was where I learned and honed my skills with the likes of DJ Gruv, Goldenboy, MizMo, and many others.

I started with Trance, and I still love the music, but I don't play it too much anymore, Then I was hooked on house and hard house then sometimes mixing some Jungle or D&B. Now I play majority breaks, but sometimes you can catch me playing some Electro House.

I have played in multiple locations from Knoxville TN, to Orlando FL, and played with multiple Dj's including Kimball Collins!!

My love for music holds no bounds.. Cannot wait to share what I have with you all!!!! will let you know of show date.

Hahahaha yeah, I can hang with the rednecks toob but, I got the hell out of Tennessee as soon as I graduated. I actually moved to Nashville when I was in grade school and graduated from highschool there in tha Ville. I moved to Texas back in 1997 and I have been in Austin TX for almost five years now.
