Hello everyone! I am delighted with my arrival to this great family, I introduce myself, my name is Duxx, I come from Spain, and soon I will join the programming of this house offering the best of the best in terms of breakbeat sounds. Refers, fresh sounds, forceful and wide variety of producers from all over the world where this music is loved, here below I leave a little about my biography and I send a strong hug from Spain. :silly:

Dj DUXX began to dishes to the 99-00 when sounds more American sounding on all tracks of baile.Vivio and perfected his technique in the golden years of the southern breaks in those years also produced remixes like "telepathy" . Over time this dj started as hobby his career was taking level, founding the record label and booking Kickbass Records adaptanodse new sounds that were coming also taking participation in various raves and also on radio through wild and nerurona dance fm radio. Today this reprising their trmendas productions that will come soon laden tech sounds more and more compelling than ever serious .... certainly is ratoo rope .....
